This is an advanced course in Sound Healing using the energy enhancement environment called the Odyssey Sound & Light Temple. The objective for participants in this series of classes is to learn various sound healing techniques using ShapeshifterDNA's multidimensional QSET sound & music in this sound room. Sound is a powerful teacher when used with conscious intent as it can bypass the mental body's labyrinth of thought forms and deeply ingrained belief systems. Sound takes you directly to the core essence of who you are on a pure vibrational level. You can learn how to manage your bio-energetic matrix (physical & etheric bodies) in new ways to assist you in all your personal transformation processes. You will receive training on how to work with the Odyssey Sound & Light Temple so that you can continue your explorations privately along with ongoing trainings and group support sessions to advance your knowledge.

The following is a general overview for this beginning class format allowing for spontaneous teachings to arise and things to shift depending on the group energy. Each class is a 3 hour course and the schedule will repeat so you can take the next class when you are ready. In between classes, you will do your own private work in the Odyssey as well as in your own home with the soundscapes.

Class 1

Odyssey Room Intro, breathwork, meditation, becoming & dissolving into sound, principles of resonance & entrainment, cymatics, understanding frequency-based information, multidimensional music, private session with JoAnn and instruction on the Odyssey

Class 2

A Personal Note from JoAnn

I have been working privately in the Odyssey Sound Room since 1989, over 25 years now. I have logged hundreds of hours in this space learning, exploring and discovering our vast potentials as we choose to consciously evolve and grow our Light Quotient. I want to begin sharing what I have learned with others so that they can enjoy the many benefits available while working and exploring in this powerful space. My husband Gary and I created this environment so that we could do our higher work in a room uniquely created for self-healing and advanced meditation work. It has supported our evolutionary work in so many ways and has enabled us to bring through the higher teachings found within our music soundscapes and writings. While each of us has a unique focus this lifetime, there is much one can learn about your personal journey when you allow yourself the opportunity to fully surrender into the vastness of ALL. Teachings will arise from the Odyssey's energetic vortex that will support you in all areas of your transformational processes, whatever that is for you at this time. As you evolve, it opens up more portals of information for you to explore. It is a never-ending field of great potential. I look forward to sharing its many gifts with you.
